Professional Summary

Results-driven SQL Server & Data Engineering Professional with 3+ years of experience in Application Support, Database Administration, and Advanced SQL Development. Skilled in designing, optimizing, and supporting enterprise-grade systems using SQL Server (CTEs, Views, Indexing, Stored Procedures, Triggers, Query Optimization), ETL pipelines, and Data Warehousing solutions.

Hands-on expertise in Azure Data Engineering (Azure Data Factory, Azure SQL Database, Azure Synapse, PySpark, Cloud Storage, Triggers) and BI Reporting (Power BI, Dashboard Creation). Proven ability to deliver high-availability solutions, troubleshoot mission-critical applications, and support DBA operations.

Work Experience

AVAAL TECHNOLOGY Pvt Ltd | Software Support Specialist

📅 Jan 2025 – Present | Gurugram, India

- Provided Database & Application Support for logistics solutions across US and Canada-based clients.
- Designed and optimized SQL queries, indexes, and stored procedures for improved application performance.
- Supported ETL workflows for data migration and reporting.
- Automated routine tasks using Python scripts & PySpark for faster SLA compliance.
- Assisted in Power BI dashboards for client reporting.

WOCOM TECHNOLOGY Pvt Ltd | Technical Support Engineer

📅 Nov 2024 – Jan 2025 | Gurugram, India

- Handled SMS/OBD/WABA API integrations with strong SQL & DB support.
- Created real-time dashboards and reports using SQL queries and Power BI.
- Ensured server performance optimization and query tuning.
- Worked with DLT registration, campaign management, and cloud call center integrations.

COMVIVA TECHNOLOGY Pvt Ltd | Tech-Ops Engineer

 Aug 2022 – Aug 2024 | Gurugram, India

- Supported telecom solutions like MCA, VMS, NBA, USSD & IVR flows.
- Managed SQL Server databases, including troubleshooting, performance tuning, and query optimization.
- Worked with SMPP gateways, SMSC, and API configurations.
- Deployed patches, automated monitoring scripts, and maintained high service uptime.
- Managed PO/SO lifecycle, inventory, and role-based access.
- Delivered L1/L2 support for application servers, Linux systems, and SQL databases.
- Worked on user management, network troubleshooting, and issue resolution with clients.

Skills & Proficiencies

- SQL Server (Expert), MySQL, PostgreSQL | Advanced SQL: CTEs, Views, Triggers, Indexes, Stored Procedures, Query Optimization
- Database Administration: Backup/Restore, Monitoring, Replication, Security Management
- Data Engineering: ETL, Microsoft Azure (Data Factory, SQL DB, Synapse, Blob Storage, Monitor), PySpark
- BI & Reporting: Power BI (Data Modeling, DAX, Dashboards)
- Programming: Python (Automation, Data Processing), Shell Scripting
- Application Support: Linux & Windows Admin, API Integrations (REST, Postman, SMPP, SMSC)
- Tools: Grafana, Jira, Zoho Desk, Golden Eagle
- Soft Skills: Analytical Thinking, Problem-Solving, Client Communication, SLA-Driven Delivery

Education

 B.Tech in Electronics & Communication Engineering
Chandigarh University, Punjab | 2018 – 2022 | CGPA: 7.5

 Intermediate (State Board)
BIC Barla | 2016 – 2017 | 77%
